TO ADVERTISERS.

Advertising rates uniform and reason-able and made known on application at the office.

TO INCREASE our bonded indebtedness than the revenue has always been true Democratie policy.

A STATE bank will be organized in Georgia and notes issued to test the con-stitutionality of the 10 per cent. law Thought you uns had got enough of run ning up against Uncle Sam.

THE present Tariff Law has thoroughly demonstrated that it is a failure. It is nnable to produce a sufficient revenue to support the Government. We don't think that even "Pudd'nhead Wilson" himself can successfully deny this.

DURING 1890-93, under HARRISON, the DURING 1890-193, under HARRISON, the average New York price of wheat was 98 cents a bushel. During 1894-195, under CLEVELAND, it was 65 cents—a loss to farmers of 28 cents a bushel. Still in 1892 the Democrats promised the farmer \$1 25 for their wheat just as a they elected CLEVELAND.

THE Wheeling Intelligencer very aptly says that the next Tariff will be made by the party of Protection. it will be at American Tariff, framed with a view t give American industry the first chance in the American market. It will lack the eweet simplicity of ad valorem duties which hold out the largest rewards to exporters and importers who do the tal!est swearing.

THE total products purchased from THE total products purchased from other countries by all the foreign countries of the world amount to \$1,569,000,-000 annually, according to the latest data. This comprises "the markets of the world." In 1892, under the McKinley Bill. the United States sold \$1,015,732,011 of the above amount, but under the Gor-man-Wilson Free-trade Bill in 1895 we sold only \$907,539,133. This shows how Free-trade helps us to "capture the markets of the world.""

WHATEVER Englishmen may claim for their system of Free-trade, they are silent when asked about its effect on farmers. The demand for landed estate in Eugland ie now extremely light. number of acres sold at the London Auction Mart in 1875 was 95,894, bnyers have dwindled, and only 11,518 acres were sold last year. The price per acre in 1875 was £52, in 1885 £32, and in 1894 less than £25. A loss in landed values of one-half in twenty years is startling. It is a good subject for Mr. BAYARD to think about now that he has been called down in his gush of flattery for England and abuse of the policies of his own country.

THE Eastern Kentucky Democrat, in discussing the Callon-Rardin contest in

discussing the UALLON-RABIN contest in 1887, asks the question:
"Will there be as many honest Repub-licane in the Raphilican Legislature in 1805 as there were honest Democrate is that Legislature? If so, with all the Democrats, the remainder of the Raphi-licane cannot is meant the Democrate whose seats are beling contested on the same ground on which Callon contested RADDIT's seat."

To which The Greenup Gazette, whose Editor was the contestee in the case, replies as follows:

pilies as follows:

"This quotation is decidedly misteading, it comes for short of the truth.
It is a fact that not a Democrat in either the Committee on Biections or on the floor of the Legislature voted to let REBINI keep his seat. Every Democrat voted to masent him, nowithstanding the record evidence in the context showed that Harpit had filed his resignation four days before the election. In this matter of contest if the Republicans are no more houses than the Democrate weit on 1987, the Democrate will be nimeated without any delay."

Solvey goods were seen to one of the complementary the mings will teeder her a complimentary benefit at Washington Opera house Thursday eventing.

FRUITS

Made to Present Tariff Laws.

n Issue of Bonds and Certificates. Indebtedness, Bearing a Low Rates Interest, for the Immediate Relief of the Treasury Department.

of the Ireaary Department.

Wammyorov, Dec. 24.—Pour hours were occupied by the republican members of the property of the prop

ments were made to the present tarifl law, which, it is estimated, will increase revenues about \$40,000,000 annually.

Another measure, which is still incomplete, will also be reported at the complete, will also be reported at the same destricted of indebtedness, bearing a low rate of interest, to meet the present emergenoies. The two measures will not be amalgamated, but will be brought before the house separately. This conclusion differs ratically from the settliness as present favored one general bill, which it was contended should stand-or fall with the senate and the president, upon its merits. Monday, however, the disposition was measured shall the agreement was reached without delay. The reason for this was obvious. It was explained by some of the members present that halvar republicans in the hone and senate would vote with their party on the suff measure while they would not oppose the bond features of the measures. It was primarily to secure the aupport of the silver republicans and not to put turn in an autagonatic position to their party, that the decision was reached to divide the two proposition to their party, that the decision was reached to divide the two proposition to their party, that the decision was reached to divide the two proposition to their party, that the decision was reached to divide the two proposition to the party on the work of the way become of the work of the way become of the work of the work of the way become of the work of the work

cione. The two bills will be reported to the house on Thursday of this week, and will be passed with little delay. One, and possibly two days, may be davoted to their consideration, but it is not improbable that they will be passed before the close of the seasion Thursday, the consideration, but it is not improbable that they will be passed before the close of the seasion Thursday, thus for discussion.

The autstantial features of the tariff bill are these.

on mannfactared eloth, over the act of 1804 A 69 per cent. rate of duty over the 1809 law (McKilniey) on lumber 1804 and 1804 and
